Dear ((NAME)),

I've seen thousands of patients—celebrities, Hollywood movie stars, mothers, even grandmothers—come into my Beverly Hills office searching for the same thing . . .

They want to do whatever they can . . . to look as young as they can . . . as quickly as they can.

Some think plastic surgery is the only answer.

Others want chemical peels, injections, or expensive laser photofacials.

Today, I'm writing to tell you about a safer, less invasive, and much less expensive way to fight fine lines, wrinkles, and other visible signs of aging . . .

. . . without spending thousands of dollars.

. . . without the pain, danger, or downtime of risky procedures.

. . . and without traveling to my office in Beverly Hills.

Instead, you can reduce the signs of aging, restore your skin's fresh, vibrant glow, and regain the confidence that comes from knowing you look your very best.

"I ABSOLUTELY love this stuff. My skin feels elastic, like it actually bounces back. I just had my 38th birthday and I swear everyone thinks I'm in my late 20s. I was about to get Botox . . . now I don't need to spend the money."

The secret is simple.

Wrinkles are formed when repeated nerve stimulation—actions like smiling or frowning—cause muscles under the skin to contract over and over again to create a "crease memory" that gradually becomes a wrinkle.

That's always been a part of aging. But Fill & Freeze Wrinkle Treatment can change that by harnessing the wrinkle-removing power of four powerful peptides that gently relax those facial muscles to undo crease memory and smooth the appearance of these fine lines in just minutes!

Even better, they help promote collagen production and stimulate your skin to restore itself naturally to create long-lasting protection against crease memory.

So you get instant results that just keep getting better the longer you continue conditioning your skin with this clinically proven breakthrough anti-aging system.

The results are immediate.

It takes mere minutes for Fill & Freeze to work its magic. Wherever you see a wrinkle, just use the handy brush to apply a rejuvenating amount . . . pat it in gently, wait—then watch that wrinkle virtually vanish before your eyes!

I know what you're thinking. This is just too good to be true. Even though you've seen our infomercial. Even though you've read what others say. Even though the results have been clinically proven.

So here's my simple invitation.

Take advantage of this special offer and give Derm Exclusive Fill & Freeze a try.

See for yourself what countless other women have seen with their own eyes . . . in their own homes.

I guarantee you'll be happy you did.
