Thom,

I am excited about this opportunity to potentially *get at least 60% on my money*.

I understand that a 60% return on my money could add up to *\$60,000 or more in profit*.

Rush me my own copy of the Memorandum that contains all the money making information I need to make a decision. Once I get the information, I can go through it with a fine tooth comb to discover all the additional benefits I didn't learn about today.

And because I am sending this to you within 6 days of receiving this, please include my **bonus information** that I can keep whether or not I invest in this great opportunity:

▶ **Insider Report:** *"Top 10 actions you can take TODAY to increase the value of your retirement account."*

▶ **A free audio CD** packed full of actionable ideas on how to **benefit** from inflation and use your SD-IRA to **beat the stock market**.

I want talk with Tom Metcalfe (the Fire Capitan who has made over \$200,000 by investing with Thom Garlock).
