**YES!** I want to subscribe to US Charts' Premium Alert Service™ and have Jim Prince as my own personal trading assistant do all the hard work for me! I look forward to Jim watching the markets for me and alerting me to any significant market moves and formations, pinpointing trading signals and entries, providing trade analysis and strategies, and much, much more.

**Platinum Package** - This is our premier service, providing a 5- to 15-minute video every trading day, Monday through Friday. Each video begins with a general market overview, followed by in-depth coverage of 12 to 15 significant markets, including a full description of that day's trading activity, suggestions for trading strategy, and entry and exit areas. Jim Prince also discusses technical issues and gives pointers based on his many years of trading experience.

\$79 per month on Auto Renewal Billing or

\$795 per year.

**Silver Package** - Daily e-mail alerts, Monday through Thursday, that give you a list of many of the markets where something is happening. Then on Friday, you will receive an email alert that lets you access a 5- to 15-minute video of Jim Prince giving coverage of the Commodity Markets and identifying trading techniques you can actually use to trade. Please note: The Silver Package emails give you a basic market overview and highlight select commodities to trade, but they do not cover all the markets reviewed on a daily basis with the Platinum Package, nor do they cover the markets in as much depth.

\$295 per year.

"I had been studying for over three years and was getting frustrated because it just wasn't clicking. What finally did it for me was subscribing... to the Premium Alert Service... It seemed like overnight the light bulb turned on and I understood everything. I even find myself finding some of the formations just before Jim talks about them on his alerts."

"...I am an accountant by trade... and am so impressed with the training that is provided and the low cost. I have been part of organizations that charged you an extreme amount of money for what they were giving you but here is not the case. I have always felt I have received more than what I have paid... Thank you...."

"12 years ago I was introduced to the Ken Roberts Company... and started to paper trade.... However, because I started my own tax consulting business... I somehow put my commodities business on the back burner... In November 2007... I called the US Charts company and subscribed to their charting service with premium alerts. In 5 short weeks I have turned \$5,000 to over \$10,000 with very manageable risk... I feel the title "The Greatest Business on Earth" is very appropriate as I have done stocks, real estate, and business and there is simply no comparison to what the world of commodities offers every day, average folks. It would take me all day to describe the benefits of this business but the bottom line is don't wait like I did. Simply take that chance that this really is that "genuine" opportunity. Do whatever it does to get started and put the US Chart Company's Premium Alert Service to work for you today!"

"...There is no easy, quick path to trading with consistent success from what I have seen. By far, the biggest obstacle is my own thick head. But the knowledge provided by US Charts and the experience of watching Jim through the Premium Alert Service has helped bring me to a level of success I didn't think was even possible... I was ready to give up, but I came aboard as a last hope of ever finding something I could do that worked for me. I now know exactly where I am and where I want to go in a market... I can't tell you how big that is. I can't tell you how glad I am to have given myself one more chance, and I can't express how thankful I am to have found your services."

— *William H., San Diego, CA*

"Jim does a terrific job. I've learned more of the understanding of markets and how to approach them in the last two months then in the nine years I've been doing this."

— *Ed M., Sublimity, OR*

"...Now I'm really learning thanks to... the Premium Alert Service. Now I see what I couldn't understand before..."

— *Bill S., Waynesville, NC*

"The premium alerts have been the single greatest addition to my "traders toolbox" that I could have ever added. To have a nightly "meeting" to review the markets I am watching and to gain the perspective of a trader with 20+ years of market experience is invaluable and certainly worth the cost. Jim's coverage of so many different patterns and setups, as well as constant discussion and reminder of the importance of money management and stops, is like having a trading partner in your office every day. I would recommend this to any trader at any level. Thank you!"
