

# Sign up for your personal trading instructor today... and start trading like a pro tomorrow.

Dear Member of the US Charts Family,

It's easy to trade like a pro when you have a pro telling you *exactly* what to do.

And that's what can happen to you when you sign up for our **Premium Alert Service™**.

That's because **this revolutionary new service really does do all the hard work for you - every day.**

So whether you're a veteran trader or new to trading, the **Premium Alert Service™ is the best, fastest, easiest, most effective, and single most powerful tool I know of that can increase your understanding of the option and futures markets as well as your potential for profits.**

This is the ultimate one-on-one, warp-speed way to knowledge and confidence. That's because - every day - you actually get to watch an online video of a veteran trader with 20-plus years of experience walk you through all the markets and...

- ✓ Unveil and mark formations
- ✓ Discuss strategies
- ✓ Identify targets, stop-loss placements
- ✓ **Identify trading signals and entry and exit points (This is huge!)**
- ✓ Carry out option searches
- ✓ Employ the profit/loss calculator
- ✓ Illustrate a possible trading plan
- ✓ Help you recognize chart patterns and formations... as well as inform you when nothing is happening so you don't waste your time looking for something that isn't there
- ✓ Illuminate various trading approaches
- ✓ Provide technical market analysis
- ✓ Offer market commentary
- ✓ Calculate risk vs. reward (Does the trade make sense? In other words, you probably wouldn't want to risk over a thousand dollars for only a few hundred dollars worth of potential profit!)
- ✓ Guide you in applying my trading strategies
- ✓ Mark important support/resistance levels on the charts
- ✓ **Identify trading opportunities - that if they're right for you, you can actually trade! This feature alone could possibly be worth a small fortune.**

✓ Offer tips and tricks for using US Charts

✓ And much, much more!

Just think how much this daily, one-on-one instruction could help you!

Just think how by watching, listening, and following along, you would instantly become a more knowledgeable, disciplined, and successful trader.

Just think how much you'd learn, how much time you'd save, and how much extra profit you might be able to realize from trades you weren't even aware of (or looking at correctly).

That's why, if you're serious about trading - or if you've been reluctant to trade because you still haven't got the hang of it - our **Premium Alert Service™** will propel you light years ahead of where you are right now.

## Just 5 to 15 minutes a day is all it takes to put a lifetime of trading skills to work for you!

Watch this every day and learn like gangbusters. It's like putting your brain on turbo boost. Think about it. You can't learn a language overnight. You can't learn to play a musical instrument overnight. But with the **Premium Alert Service™**, practically overnight, you really can start understanding - and possibly trading - the futures and option markets just like a veteran trader.

**Make the best investment of your life!** *Invest in yourself.*

- **Become a better, smarter, safer, more confident trader,** practically overnight.
- **Accelerate your learning process** so you really begin to understand the markets in a matter of weeks instead of months. (And because you learn so much, so quickly, you won't get discouraged and give up.)
- **Effortlessly stay on top of all the markets** and take advantage of potential profit opportunities that you might otherwise miss.

If you've tried paper trading or real trading and just can't seem to stick with it or get the hang of it, this is the revolutionary, new, breakthrough, personalized teaching tool that will make everything fall into place.

## Unlike other investments, this one comes with a 100% risk-free guarantee:

If for any reason the **Premium Alert Service™** is not everything I say it is, cancel your subscription within 30 days and get all your money back - a full refund. **That means - for a full month with no risk or obligation - you can:**

- Test drive it
- Live with it
- Learn from it

# Now here's the moment of truth. Be really honest with yourself:

Think how helpful a personal trainer or tutor would be for your trading... and what it would cost - on a daily basis, for that kind of one-on-one attention!

Think of all the other financial training products that give you information but then leave you on your own to apply it with no guidance to make sure you're doing it right.

Now think of the time you'll save, the knowledge you'll gain, the confidence you'll acquire, and the peace of mind you'll find with the **Premium Alert Service™**.

Finally, think of the profit potential... as well as the money you might not lose... because someone is there to show you when to exit a trade before it's likely to go against you. How much is *all that* worth?

**With any business or profession - or even a hobby - if you want to be good at it, you need the right tools.** And it's even better if the tools are simple, easy to understand, and easy to use. That's what you get with the **Premium Alert Service™**. Best of all, the Premium Alert Service™ is a learning tool as well as a trading tool, so if you're trading with real money, you may be able to deduct the cost for it as a business expense. (As tax laws depend upon your individual situation, please check with an accountant or tax specialist to be sure.)

## Two Levels of Service to Meet Your Needs

We're all different, and one-size-fits-all doesn't always work. That's why we offer the **Premium Alert Service™** at two levels so you can choose the degree of assistance you want to receive.

Our **Platinum Package** is our premier service. It provides a 5- to 15-minute video every trading day, Monday through Friday. After presenting a general market overview, I select 12 to 15 significant markets and provide a full description of that day's trading activity, suggestions for trading strategy, and entry and exit areas. I also discuss technical issues and give pointers based on my many years of trading experience. Videos are archived in the member area of our website so you can refer back to them as many times as you would like. This is the type of trade-alert service that many professionals pay thousands of dollars for each year, but we've kept it affordable for members of the US Charts family. The cost is just \$79 per month on Auto Renewal Billing, or only \$795 for a full year.

Our **Silver Package** is for traders who want minimal assistance. It provides a daily email alert Monday through Thursday, and access to my 5- to 15-minute videos on Fridays only. These emails summarize general market activity, and then briefly analyze 5 to 7 markets per day. All emails are

archived in the member area of our website so you can always read them again if you wish. This service can help guide you as you do your own market research, and is only \$295 for a full year.

You will benefit from either package, however if you want full assistance in focusing on the best markets, along with full explanations and detailed follow-through, I strongly suggest you try our Platinum Package - taking advantage of our 100% risk-free guarantee - and see for yourself whether it does everything I say it can.

*I don't care if you think you're un-teachable. I don't care if you've tried and given up on trading a dozen times or more.*

If you can watch TV, you have all the skills you need to learn from the **Premium Alert Service™**. That's because its step-by-step process is so effective at helping you learn that I can guarantee you a number of those "aha! moments" when everything falls into place.

**Until you see it and use it and start to learn from it, you can't possibly know how good and effective it really is.**

Take advantage of this opportunity to let me become your personal tutor so that your trading can really take off. I look forward to personally working with you every day.

Happy Trading,

Jim Prince

**P.S.** Interested but want to know more? Then **call our toll free number 1-800-230-2427** and talk to one of our Course Counselors. They'll be glad to answer any questions you may have - even the ones you may think are silly.

**P.P.S.** As a trader, would it be helpful for you to see - on a daily basis - all the major markets where potential profit opportunities may be brewing? Sign up for the **Premium Alert Service™** today... and start homing in on these promising markets tomorrow!

WARNING: FUTURES AND OPTIONS trading involves high risks and YOU can LOSE a lot of money. The risk of loss in trading commodity futures and options contracts can be substantial. There is a high degree of leverage in futures trading because of the small margin requirements. This leverage can work against you as well as for you and can lead to large losses as well as large gains. This brief statement cannot disclose all the risks and other significant aspects of the commodity markets. You should carefully study commodity trading and consider whether such trading is suitable for you in light of your circumstances and financial resources before you trade.
